Entering Our School Building

- All visitors enter the school building through the main front entrance
- Ring the A-Phone doorbell/camera and wait for our front office staff to answer.
- Be prepared to show identification via the outdoor camera.
- If you arrive while someone else is entering the building, please wait and then go through the A-phone process.
- It really does help our front office staff to be able to acknowledge visitors separately as they enter the building.
- Do not be offended if you are asked to wait by a person entering before you. We are all working to keep our school safe.
- Once inside, please wait to be buzzed into the front office where Ms. Nicole or Ms. Amanda will be happy to help you.
